Additional info

For all the Moms and Dads who are not familiar with our product - We replicate (make an exact copy of your little one's feet in 3D form), and we mount the feet in a box frame. Our product is a wonderful reminder of how tiny and cute your little one's feet were for many years to come.

- Castings can be painted gold, pale gold, rose gold, bronze, or silver.
- Frames come in black.
- For marketing purposes, frames are posted on social media platforms.
- Our casting product is safe, and it is similar to what is used by Orthodontists to create teeth moulds for little children's braces.
- You are welcome to bring your own, or use our vaseline/baby oil to lubricate feet/hands.
- Your little one's feet/hands will be placed in...

4rm Me 2U

Additional info

the casting product mixed with luke warm water for less than a minute each.

- The foot/hand is slipped out, and the same process is followed on the next foot/hand etc.
- Bubble bath luke warm water is used to rinse your little one's feet/hands. Please let us know, if your little one is allergic.
- The process is fairly quick, although the quality outcome of the casting, and the duration of the casting session depends on the co-operation of your little one.
- Each appointment is allocated an hour to fully accommodate your little one, should you need to feed, change diaper or simply calm the baby.
- Our appointment will need to be rescheduled should you be 30 minutes late.
- For bookings, kindly contact us on 071 150 3573 via WhatsApp or phone call.
